What a journey we've been on together this year! It's been a year of exploration, discovery, and expanding our ideas. None of this would have been possible without you.

I'm more excited than I have ever been about our work and our ability to fulfill our mission to provide a free, world-class education to anyone, anywhere.

We did a tremendous amount of work on expanding our content, enhancing our platform, and reaching more children in our Districts Partnerships program.

At the same time, we leveraged AI and built an innovative learning tool: Khanmigo, our AI-driven student tutor and teacher's assistant. Just a few years ago, I would have told you this was still in the realm of science fiction. Now we can truly start to harness the promise of AI to unlock human potential. We believe in the power of education to transform lives, and we're committed to making this a reality for everyone, not just the lucky few.

Thank you for being a part of this journey. Together, we're not just changing education, we're shaping the future.

**-Sal Khan**  
*Khan Academy CEO*

# Education transforms lives.

The news about education can be so discouraging. Declining test scores. More and more children lacking the foundational skills to build a productive, happy life. Scores of silver-bullet solutions that don't actually work.

So it's **amazing**—truly amazing in the almost old-fashioned sense of the word—to **find something that works**.

Because Khan Academy does. It works. Every year, more than 100 million people come to Khan Academy to learn. By using Khan Academy for 30 minutes a week over the course of the school year, students can completely change their academic trajectory. Last year, 1.5 million people reached that level of learning.

It's not a transformative amount of time, but the result **is transformative**.

And the introduction of **Khanmigo, our AI student tutor and teacher assistant**, is yet another transformative leap. The dream of each student having a world-class tutor and every teacher having a capable assistant is within our reach.

You are the catalyst that makes this possible. Your support drove all of Khan Academy's accomplishments over the past school year. We made this happen together, and we are excited to celebrate with you.

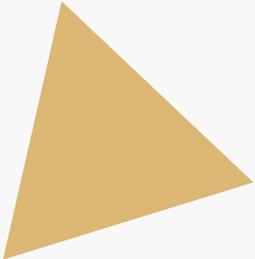

## OUR MISSION

Provide a free,  
world-class education  
for anyone, anywhere

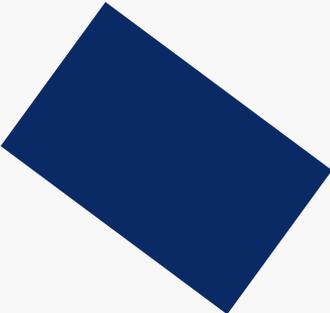

Academic outcomes were poor before the pandemic and are worse now. Math and reading proficiency continues to decline. Recently, U.S. students' math scores reached their lowest point ever recorded.

We stand at a critical juncture  
in American education...

Making matters more complicated, educators are stretched thin. Classrooms within the same grade are full of students who learned at varying rates throughout the pandemic and are now at vastly different proficiency levels.

*Note: These results are from The National Assessment of Educational Progress (NAEP), also known as The Nation's Report Card—the largest nationally representative and continuing assessment of America's students.*

...and yet, this moment also presents an unprecedented opportunity for change.

We've risen to meet this challenge and have committed to changing the trajectory of 5 million children by 2027.

Khan Academy has set an ambitious goal to **accelerate the learning of 10% of U.S. students**—about 5 million learners—every year **by 50% in STEM**, prioritizing **learners in historically under-resourced communities**.

**Our goal is learning.** Our work toward our five-year ambition is aligned to the following four pillars:

<h2>Reach</h2>	<h2>Content</h2>	<h2>Engagement</h2>	<h2>Credentialing</h2>
<p>Serve learners across the U.S. and international geographies with an emphasis on learners in underserved communities.</p>	<p>Deliver high-quality content in core areas: preK-2 literacy and math, grades 3-14 math and science, and financial literacy. Maintain and build content in humanities.</p>	<p>Empower students to learn using a mastery learning approach by providing an efficacious user experience and supporting teachers to drive deep learning.</p>	<p>Enable students to receive credit for their learning in a manner that offers transferability and provides access to future opportunities.</p>

## Here are just a few of the accomplishments that your support made possible in school year 2022-23:

### EXPANDED REACH

- Added **13.7M** new learners globally
- **6.7M** downloads of Khan Academy Kids
- **7.7B** overall learning minutes in 2022-23, including **1.2B** minutes on Khan Academy Kids

### ENRICHED CONTENT OFFERING

- Free **Official Digital SAT Prep** course
- New **Financial Literacy** course
- **Algebra Basics in American Sign Language (ASL)**

### DEEPENED ENGAGEMENT

- **Launched Khanmigo**, an AI-powered tutor and teaching assistant
- **Grew Khan Academy Districts Program 13% YoY**, reaching 945K children in the U.S
- **Grew Yearly Very Active Learners (18+ hrs of learning on KA/year)** via Districts Partnerships **40% YoY**

### EXPANDED CREDENTIALING

- **Expanded our credentialing program by >2x**, enabling even more students to receive transferable credit for their learning

PILLAR 1

# Reach

The Reach pillar describes Khan Academy's impact serving learners across the U.S. and international geographies, with an emphasis on learners in underserved communities.

With your support, we reached an impressive number of learners and educators in school year 2022-23:

REACH HIGHLIGHTS FROM 2022-23 INCLUDE:

**13.7M**

NEW REGISTERED LEARNERS

**120M**

TOTAL YEARLY LEARNERS

**490K**

NEW REGISTERED TEACHERS

**718K**

NEW REGISTERED PARENTS

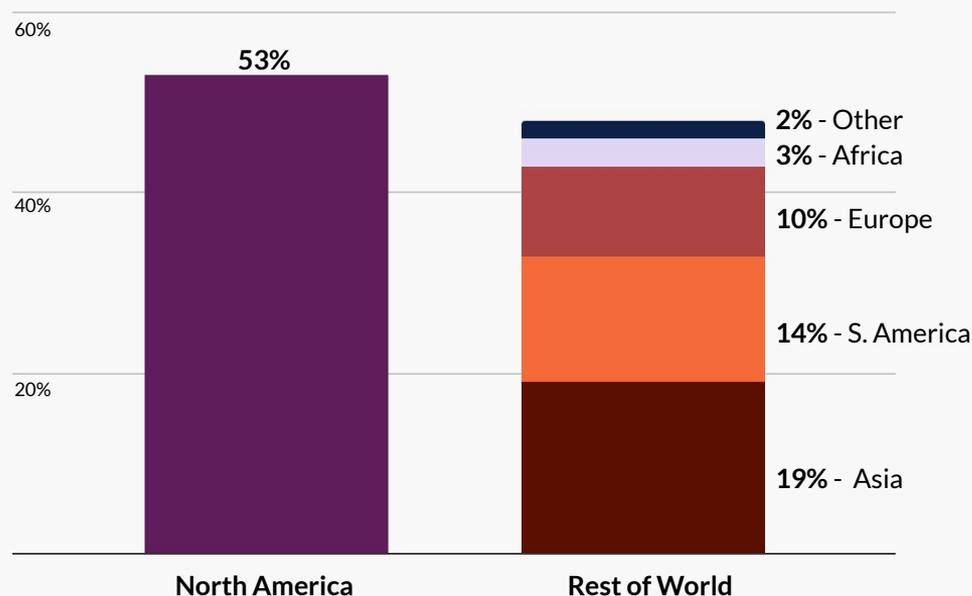

**6.7M**

KHAN KIDS DOWNLOADS

Today, >150M registered users utilize Khan Academy in 190 countries and in 56 languages.

Khan Academy has fostered extensive grassroots adoption by independent learners, teachers, and parents around the world. Our goal is to reach even more people and help them unlock their potential.

Khan Academy's users outside of North America are nearly equal to users within North America.

In SY22-23, we launched a new Districts Partnership Model for Khan Academy Kids to increase our reach to historically under-resourced communities that face the greatest barriers to quality early childhood education.

KHAN KIDS IMPACT HIGHLIGHTS, SY22-23:

**6.7M**

DOWNLOADS

**1.2B**

MINUTES

Cumulative time learners have spent on Khan Academy Kids

**2**

PILOT SCHOOL DISTRICTS

Added two partners to our Khan Kids for Educators District Partnerships model.

In addition to our free content, this partnership model provides educators with additional resources to implement Khan Academy Kids and set young learners up for success.

### Teacher account- FREE

Everything inside of our free app:  
7,000+ Lessons  
400+ books  
Assign lessons  
View student data

### School account

Everything inside of our free app, plus:  
Access to a web dashboard for teachers,  
school data for admins, and onboarding  
professional development implementation  
support.

### District account

Everything inside of our free app, plus: data  
dashboard at the teacher, school, and  
district level; custom professional  
development sessions throughout the year;  
and personalized implementation and  
technical support.

## PILLAR 2

# Content

The Content pillar describes Khan Academy's impact delivering high-quality content in core areas (preK-2 literacy and math, grades 3-14 math and science, and financial literacy) and maintaining and building content in humanities.

## Khan Academy is known for its high-quality, standards-aligned content.

Each year, we add new courses and update our repository, ensuring learners worldwide have access to effective and transformative educational content.

*Content highlights from school year 2022-23 include:*

- **Free Official Digital SAT Prep course** to support students as they prepare to take the new digital SAT.
- **New Financial Literacy course** that meets requirements in >25 states for high school financial education
- **Expanded K-12 content in the U.S.**, including updates to middle school and high school science courses; 3rd-, 4th-, 5th-, 6th-, and 7th-grade math courses; and 8th-grade Eureka math courses. We also added an AP World History course and curated new MAP algebra and MAP geometry courses.
- **Algebra Basics in American Sign Language (ASL)** in partnership with RIT's National Technical Institute for the Deaf
- **New Khan Kids Library titles** with a focus on community helpers, designed to foster a love for reading from a young age
- **Updated grades 9-12 science courses in India and math courses in Peru** to improve content alignment to learners' needs

Khan Academy is the only official partner of the College Board. In October 2022, we launched Official Digital SAT Prep to ensure students are ready to take the new digital SAT.

#### ABOUT OUR FREE OFFICIAL DIGITAL SAT PREP CONTENT

- Enables students to focus on the exact skills needed to succeed on the test
- Includes access to a library of thousands of practice questions, videos, lessons, and test-taking tips
- Includes guidance from Khan Academy's team of math, reading and writing experts.

#### OFFICIAL DIGITAL SAT PREP LAUNCH RESULTS | October '22-23

**1.65M**  
STUDENTS

Students who used either the Math or Reading and Writing course

**650K**  
STUDENTS

Spent over 2 hours (30+ min / week) per month on either the Math or Reading and Writing course

**125M**  
MINUTES

Time students spent studying for the digital SAT on Khan Academy

In July 2023, we made significant updates to our Khan Kids reading comprehension offering. These updates align with Common Core State Standards for English Language Arts.

#### ABOUT OUR READING COMPREHENSION UPDATES

- KA Kids now has coverage of K-2 reading standards, in both an integrated manner and a structured one.
- Launched first videos for reading comprehension, 24 videos total.

#### READING COMPREHENSION LAUNCH RESULTS

**In August 2023 we saw the 3rd highest amount of monthly downloads on Google Play of any month across our app's lifetime!**

**200K**  
TOTAL USERS

Number of students who have played our new Reading Comprehension activities

**620K**  
LESSONS

Number of times students have accessed newly-launched Reading Comprehension materials

**1.6M**  
MINUTES

Cumulative time learners have spent on Reading Comprehension activities

“Khan Academy levels the playing field. In college, I knew the knowledge that my classmates who went private schools knew because I had this free resource. **My success is because of Khan Academy.**”

*–Jasmine  
first-generation student,  
UC Davis graduate,  
Khan Academy donor*

PILLAR 3

# Engagement

The Engagement pillar describes Khan Academy's impact empowering students to learn using a mastery learning approach, providing an efficacious user experience and supporting teachers to drive deep learning.

During the 2022-23 school year, **1.5M+ learners reached our deepest level of learning** associated with significant learning gains.

We track two key engagement metrics:

- **Monthly Very Active Learners (MVALs):** learners who have used Khan Academy for at least 120 minutes per month (30+ minutes per week)
- **Yearly Very Active Learners (YVALs):** learners who have used Khan Academy for 18+ hours (30+ minutes per week) over the course of a school year

These engagement metrics come from our efficacy studies.

## >50 research studies show that Khan Academy works.

Khan Academy boasts a repository of more than 50 research studies, each a testament to our platform's efficacy.

Last school year, we researched learning outcomes from our Khan Academy District Program using data from nearly 330,000 students in grades 3-8 during the 2021-2022 school year. We assessed their performance on the same nationally normed assessment—MAP Growth test scores.

The verdict? Khan Academy is a reliable tool for enhancing learning outcomes:

**32%**

Amount that learners exceeded pre-pandemic growth expectations after using Khan Academy 30+ minutes per week (see Figure 1 on the next page)

**Usage boost =  
Achievement  
boost**

Year-over-year analysis showed that students who increased their usage from the previous year saw a corresponding boost in achievement. This enables us to determine Khan Academy usage is making the difference rather than other factors like specific teachers or student motivation.

**Consistent  
results**

Results are consistent across grades and demographic subgroups, such as race, gender, and income.

See results in Figure 1 (next page).

Results from our most recent analysis shows students who spend 30+ minutes per week on Khan Academy exceed pre-pandemic learning growth by an average of 32%.

Association between MAP Growth math gains and MAP Accelerator usage

[More on this study](#)

# Grassroots teachers and our Districts Partnerships program drive deep usage and significant learning gains.

## Grassroots teachers

The grassroots program, open to any teacher, empowers teachers with a free suite of classroom tools and free training through Khan for Educators.

Grassroots teachers play a pivotal role in fueling usage and engagement. While these dedicated educators constitute only 4% of our registered user base, **their influence in driving deep engagement is significant—close to 60% of efficacious learners in the United States.**

**4x**

THE RATE OF  
OVERALL U.S.  
LEARNERS

Rate at which **U.S. grassroots teacher-directed learners** reached efficacious usage of Khan Academy

## Khan Academy U.S. Districts Partnerships program

The Khan Academy Districts program engages educators at the district level and includes additional benefits, like school and district-level reporting.\* Our Districts Partnerships program is our best pathway to get students to efficacious usage of Khan Academy.

By the end of the 2022-23 school year, our Districts Partnerships program reached 945K licensed learners (+13% YOY) **and engaged >103K yearly very active learners (+40% YOY).**

\*See next page for an overview of the Khan Academy Districts program.

**10x**

THE RATE OF  
OVERALL U.S.  
LEARNERS

Rate at which **U.S. Districts Partnerships program students** reached efficacious usage of Khan Academy

## Our proven learning platform is the backbone of the Districts Partnership offering, which also includes:

---

*Additional paid resources for  
District Partners*

---

### Implementation planning

Customized goals tailored to each school's unique needs and circumstances, customized implementation plans and training tailored to the challenges individual teachers and administrators face

### Implementation support

Tailored professional learning options and regular follow-ups to ensure our partners are implementing best practices and generating results

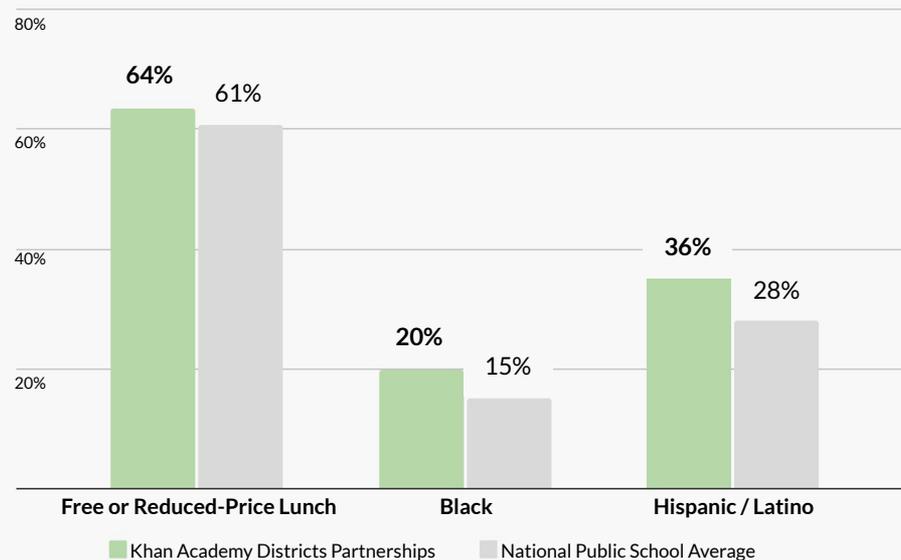

### Data insights & reporting

Comprehensive school and district-level insights and reporting to help educators understand student performance and progress

The Districts Partnerships program is focused on bringing Khan Academy's proven learning platform to hundreds of thousands of historically under-resourced students in the U.S.

The Khan Academy U.S. Districts Partnerships program has higher percentages of under-resourced populations relative to the national average.

Our partnership with Newark School District began in November 2022. Since then, Newark has generated outsized engagement results, demonstrating what's truly possible with a Khan Academy implementation.

NEWARK PARTNERSHIPS STATS:

- **13 schools** in Newark School District's North Ward
- **6,000+ math students & 560+ educators** in grades 3-8
- Students are: **55% are Hispanic / Latino**, **>35% Black**, and **>70%** are economically disadvantaged

Khan Academy's work with Newark School District is made possible through the generous support of the Amgen Foundation.

NEWARK SCHOOL DISTRICT PARTNERSHIP YEAR 1 RESULTS:

**68%**

YVALs BY END OF  
2022-23 SCHOOL YEAR

Produced the **highest number of Total Yearly Very Active Learners (YVALs)** among all Khan Academy district partners

Internationally, Khan Academy has teams working in India, Brazil, and Peru to localize content and partner with school districts. School districts operate at the state or city level, so a single partnership can bring Khan Academy to hundreds of thousands—or even more than a million—children.

INTERNATIONAL DISTRICTS PARTNERSHIPS IMPACT HIGHLIGHTS,  
SCHOOL YEAR 2022-23:

**1.1M**

YEARLY ACTIVE  
LEARNERS

+66% YoY

**44K**

YEARLY VERY  
ACTIVE LEARNERS

+67% YoY

Khan Academy is **partnering with the government of Uttar Pradesh, one of the largest states in India**, enabling math learning in the Kasturba Gandhi Balika Vidyalaya.

Khan Academy is **breaking down societal barriers that often discourage female students from pursuing math**. We're proud to be part of this change, fostering an inclusive learning environment where every student, regardless of their background, location, or gender, has equal opportunities to learn and excel.

**“Ever since we started doing Khan Academy problems, maths doesn’t intimidate us anymore.”** –Student in Kasturba Gandhi Balika Vidyalaya, U.P.

#### PILLAR 4

# Credentialing

The Credentialing pillar describes Khan Academy's impact enabling students to receive credit for their learning in a manner that offers transferability and provides access to future opportunities.

# Khan Academy enables high school students to receive college credit and bypass remedial math. **The potential impact is enormous:**

higher college graduation rates

higher wages

overall economic success

Algebra is a major barrier to college acceptance and completion, especially for historically under-resourced students. Khan Academy has partnered with Howard University and National Education Equity Lab since 2021 to address this barrier by offering college algebra to high school students.

## ABOUT THE PILOT

- **387 high school students** across 20 Title I high schools were enrolled
- **340 students started** the college algebra course

## 2022-23 HOWARD UNIVERSITY PILOT RESULTS

**98%**

COMPLETED THE COURSE\*

**81%**

OF THOSE WHO COMPLETED THE COURSE & RECEIVED CREDIT\*

\*Percentage of students who started the college algebra course

“The gating effect of math is a concerning, yet solvable, problem. **This effort will help open doors of opportunity to under-resourced students around the nation who too often are gated out of educational and professional opportunities because they lack the requisite math training, by no fault of their own.** We want to empower high school students to pass college algebra and know that they can take on anything after that.”

*-Dr. Bourama Toni, Chair of Howard University's Department of Mathematics*

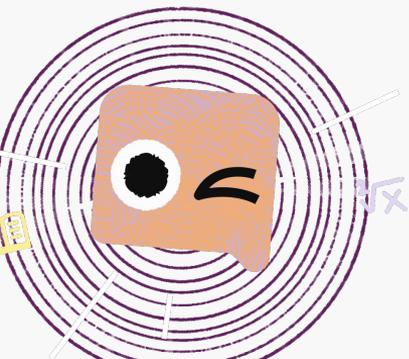

# Khanmigo

Khanmigo is Khan Academy's AI-enhanced tutor for students and enthusiastic assistant for educators. Khanmigo was piloted and launched in spring 2023.

# An amazing tutor for anyone, anywhere.

Today, the world is buzzing about the promise of artificial intelligence. We believe in AI's promise, so we've put artificial intelligence to work for students and educators. Because we believe that every student deserves an amazing tutor, and every educator deserves an enthusiastic assistant.

We know that technology can help or it can hinder, depending on a person's pre-existing circumstances. We want to make sure no one is left without access to the latest innovations. To ensure this powerful, new technology works for everyone instead of creating a deeper digital divide, we're working closely with District Partners in historically under-resourced communities. Everyone deserves a chance to shine.

## Khanmigo is an on-demand tutor for learners...

Khanmigo helps students understand content and work through practice exercises. When students are stuck, Khanmigo guides students through structured problem solving, empowering them to find the answer.

How can you help me learn?

I'm Khanmigo, your friendly AI Tutor! I'm here to guide you through your learning.

## ...and an on-demand teaching assistant for educators.

Khanmigo is designed to save educators time and enable more personalized teaching.

### *As a tutor, Khanmigo:*

- Answers questions
- Debates topics
- Checks for understanding
- Gives encouragement
- Enables students to chat with historical or literary figures
- Co-writes stories
- Navigates the college admissions process

### *As a teaching assistant, Khanmigo:*

- Writes lesson plans
- Helps teachers refresh their understanding of lesson content
- Creates lesson hooks or exit tickets
- Monitors student learning progress & recommends what to learn next

## KHANMIGO | PILOT STUDY RESULTS

In spring 2023, Khan Academy launched Khanmigo for independent learners and hosted pilots in two districts that were willing to help us further develop Khanmigo. We intentionally over-indexed on District Partners with higher percentages of students from under-resourced communities so Khanmigo would effectively meet the needs of real classrooms with students from all backgrounds.

### ABOUT THE KHANMIGO PILOT

- Conducted **April - June 2023**
- ~8,700 users, including **90 teachers and 800 students**
- Students who participated in the district pilots attended **schools where 42-82% of students are eligible for free or reduced-price lunch.**

### SPRING 2023 KHANMIGO PILOT RESULTS

# 77%

OF STUDENTS WHO  
RATED KHANMIGO  
4 OR 5\*

Students shared their responses to “How much does Khanmigo feel like a good tutor?” by assigning responses on a 5-point scale.

Students also anecdotally described Khanmigo as “conversational, makes me feel understood, kind, respectful, patient, and clear.”

# 70%

OF TEACHERS WHO  
RATED KHANMIGO AS  
“HELPFUL OR VERY  
HELPFUL”\*

Teachers shared their responses to “How much did Khanmigo feel like a good tutor?”

**“[Khanmigo] allowed students to take control of their learning and become more independent.** This allowed me to spend time with smaller groups, knowing that the rest of class was still receiving support.”

*-Districts Partnerships teacher*

# Financials

In keeping with our educational focus, Khan Academy's work is based around the school year in the United States. The metrics and accomplishments in the annual report reflect the work from July 1, 2022 to June 30, 2023. This financial report covers Khan Academy's fiscal year, which is January 1, 2022 to December 31, 2022.

## 2022 Revenue Source

This list reflects giving from January 1, 2022-June 30, 2023.

# Supporters

Your generous support makes it possible to accelerate the pace toward a brighter future where every curious mind is empowered to achieve. Together, we're setting millions of people on a journey of lifelong learning and progress. Your continued partnership not only keeps the platform's resources free for everyone, it also brings us one step closer to a world where every child, regardless of circumstance, will have the opportunity to realize their unique potential.
